Fiscal Year 2008 Highlights

Cities Alliance members sponsored 24 new CDS and slum upgrading projects as part of the \$10.4 million work programme approved during fiscal year 2008, including \$7.7 million approved from core funds. Core fund approvals were 65 percent higher than in fiscal year 2007.

Projects in Sub-Saharan Africa were the largest regional recipient of grants in fiscal year 2008, receiving US\$1.9 million in allocations, 19 percent of the total approved. Grants in Asia received 14 percent of grant funding. Approximately 50 percent of funding was allocated for global and multi-regional activities, including funding of the Cities Alliance secretariat.

As of 30 June 2008, funding of \$45 million was committed to approximately 100 on-going activities. This includes 78 grants for country or regional projects, and the remainder for global activities. More than \$113 million has been committed since the launch of the Cities Alliance.

The Cities Alliance's MTS includes an emphasis on promoting city and country ownership, preferring direct implementation of grant funding provided by the Alliance, wherever possible. In the early years of the Alliance, most grants were implemented by international partners on behalf of the city or country, usually the World Bank or UN-HABITAT. Only 10 percent of projects approved during the Alliance's first four years (FY00–FY03) were executed by a local authority or local authority association (LGA), and an additional 12 percent by a country partner. In contrast, among the current active or newly-approved projects, 27 percent are executed by a local authority

or LGA, and nearly 20 percent others by a country partner. Thus, nearly half of current Cities Alliance projects are already under country-execution.

In membership news, Spain and the Commonwealth of Australia became the 11th and 12th donor governments to join the Alliance, while Chile and the Philippines became the 5th and 6th developing countries to join. Spain made a significant initial contribution of €1.5 million over two years (US\$2.3 million), immediately making it the third largest donor to the Alliance. Australia is joining the Alliance as a step towards developing an urban development strategy for Australia Aid.

In other donor news, Norway tripled its financial contribution to the Alliance in fiscal year 2008, increasing it to NOK 15 million (US\$2.65 million), including support for the Alliance's MTS.
